Clinical Pharmacology

GLP-131 MAD Cohort 1

Study Inpatient dates:

January 14-January 16, 2026
January 21, January 23, 2026
January 28-January 30, 2026
February 04-06, 2026
February 10-12, 2026
February 24-27, 2026

Study Home Dosing dates:

January 17-20, 2026
January 24-27, 2026
January 31-February 03, 2026
February 07-09, 2026
February 13-23, 2026

| Sun | Mon | Tue | Wed | Thu | Fri | Sat |
|----------------------------------------------------------------|-------------------------------------------------------------------------------|----------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------|----------------------------------------------------------------|
| | | | | 1 New Year's Day Begin prescription and OTC drug and herbal remedies, CYP3A4 inhibitors (including Seville oranges and grapefruit), and sensitive substrates restrictions | 2 | 3 |
| 4 | 5 | 6 | 7 Begin cruciferous vegetables and barbequed/chargrilled meat restrictions | 8 Begin plasma donation restrictions | 9 | 10 |
| 11 Begin biotin and exercise restrictions | 12 Begin alcohol, marijuana, THC, CBD, and poppy seeds restrictions | 13 | 14 Day -1 Admission Begin blood donation, grapefruit, cranberry, caffeine, and other xanthines restrictions | 15 Day 1 Dose Begin sunlight restrictions | 16 Day 2 Discharge | 17 Day 3 Home Dose *Complete dosing diary |
| 18 Day 4 Home Dose *Complete dosing diary | 19 Day 5 Home Dose *Complete dosing diary | 20 Day 6 Home Dose *Complete dosing diary | 21 Day 7 Admission **Bring IP and dosing diary | 22 Day 8 Dose | 23 Day 9 Discharge | 24 Day 10 Home Dose *Complete dosing diary |
| 25 Day 11 Home Dose *Complete dosing diary | 26 Day 12 Home Dose *Complete dosing diary | 27 Day 13 Home Dose *Complete dosing diary | 28 Day 14 Admission **Bring IP and dosing diary | 29 Day 15 Dose Payment #1* | 30 Day 16 Discharge | 31 Day 17 Home Dose *Complete dosing diary |

Instructions / Restrictions:

- Avoid use of any prescribed or over-the-counter drug or herbal remedies (other than HRT/hormonal contraception) **in the 14 days before Day 1.**
- Avoid use of strong and moderate CYP3A4 inhibitors (including Seville oranges, grapefruit, grapefruit hybrids or grapefruit juice) or sensitive substrates of CYP3A4 or P-gp/BCRP with narrow therapeutic indices **in the 14 days before Day 1.**
- Avoid use of CYP3A4 inducers **in the 28 days before Day 1.**
- Avoid donation of plasma **in the 7 days before Day 1.** Avoid donation of blood or plasma **from first admission, throughout the study duration, and for at least 30 days following last dose of study medication.**
- Abstain from alcohol during the **48 h prior to first admission until 72 h post-final dose.**
- Abstain from marijuana, THC, or CBD products during the **48 h prior to first admission until 72 h post-final dose.**
- Avoid drinking liquids or eating foods containing grapefruit, cranberry, caffeine or other xanthines from **24 h prior to first dose until 72 h post-final dose.**
- Refrain from eating food containing poppy seeds for **48 h prior to first admission until 72 h post-final dose.**
- Refrain from eating food containing cruciferous vegetables (e.g. broccoli, brussels sprouts, cabbage, cauliflower, horseradish, kale, kohlrabi, mustard seeds/leaves, radish, wasabi and watercress) or barbequed/chargrilled meat for **7 days prior to first admission until 72 h post-final dose.**
- Refrain from using biotin or biotin-containing products during the **72 h prior to first admission until 72 h post-final dose.**
- Avoid any unaccustomed or strenuous exercise from **72 h prior to first admission until 72 h post-final dose.**
- Minimize exposure to sunlight by spending a reduced amount of time outdoors/remaining inside the clinical unit during residential periods of the study, wearing sunglasses and clothing that minimizes exposure to sunlight, and using sun cream on exposed areas when going outdoors, and avoid using sunbeds **from first dose until 7 days post-final dose.**

Reminder: Breath alcohol and cotinine & urine drug test at **Day -1 Admission only** and COVID-19 rapid antigen test at **Day -1, Day 7, Day 14, Day 21, Day 27, and Day 41 Admission.**

***payment to occur within 48 hours after payment visit day**
