

Unlock the Power of Data

ClinTrak[®] delivers on-demand access to all your clinical study data in an intuitive interface – unlocking deeper insights and empowering objective, data-driven decision making. This advanced, integrated platform enables teams to work more productively and maintain program oversight while ensuring high data quality and shortening timelines for clinical trials regardless of therapeutic area, size, or complexity.

INTEGRATED & INTELLIGENT

Enriched by dynamic data sources & powered by advanced analytics

- ClinTrak provides one unified platform to access and analyze data across various functions, including Medpace clinical operations, laboratories, imaging, ePRO, and IRT – providing a centralized view of your trial in one intuitive interface to support oversight and decision making.
- Dashboards and reports are generated using data aggregated from numerous sources and external feeds – which are flexible and adaptable to the needs of your program.
- Intuitive data visualizations are powered by advanced analytics and algorithms – delivering critical insights without time consuming manual review and manipulation.
- Customizable and scalable for programs of varying size and complexity – from small, focused trials to large global programs across all therapeutic areas.

ACCESSIBLE & TRANSPARENT

On-demand access to your study data & insights

- Sponsors have transparent access to current study data – to keep study teams informed and empowered to make timely, data driven decisions with confidence.
- Dashboards and reports are personalized to each team member's unique role and are fully customizable – keeping the most critical metrics in focus and allowing for the easy review of progress being made on your program.
- On-demand access to all your data – eliminating barriers between you and your study metrics.

PURPOSE-BUILT

Designed for Sponsor's needs – driving quality & efficiency

- ClinTrak has been purpose-built in-house to complement the Medpace full-service model – aligning with our SOPs and processes while remaining customizable to meet your specific needs. This strategy ensures speed, quality, and compliance, while fostering proactive accountability within our teams and empowering Sponsor oversight – delivering greater efficiency and productivity than a multi-vendor approach or generic “off-the-shelf” solution.
- Refined over 20+ years through continual Sponsor feedback and inspections, ClinTrak meets all required global compliance standards, with data integrity and security protected by rigorous quality and IT security SOPs.
- Trusted by Biotech[®] – Since 90% of our client-base are small- to mid-size biotechs, we understand the need to be agile and resourceful. ClinTrak equips you with the insights you need to monitor key milestones and be confident in the quality and efficiency of your study's execution – keeping it on track and on budget.
