

# OPHTHALMOLOGY

A COMPETITIVE EDGE FOR CLINICAL DEVELOPMENT

## GLOBAL REACH

OPERATIONAL AROUND  
THE WORLD — WHEREVER  
RESEARCH IS HAPPENING

# DRUG & DEVICE EXPERIENCE

- Natural History Studies
- Age Related Macular Degeneration
- Leber's Congenital Amaurosis
- Retinitis Pigmentosa
- Achromatopsia
- Cataracts
- Glaucoma
- Presbyopia
- Retinal Vein Occlusions
- Diabetic Macular Edema

## IMAGING CORE LAB

TOP OPHTHALMOLOGY IMAGING CRO

- Experienced in many modalities and measurement criterion for critical imaging endpoints
- Long-standing relationship and collaboration with central reading centers with various modalities of ophthalmic imaging
- Board-certified ophthalmologists and retinal specialists who provide reliable and reproducible interpretations of ocular images
- In-depth understanding of the various ophthalmic techniques available for the required evaluations
- Cohesive, experienced study team with expertise in monitoring ophthalmic disease progression across large populations

# OPHTHALMOLOGY

A COMPETITIVE EDGE FOR CLINICAL DEVELOPMENT

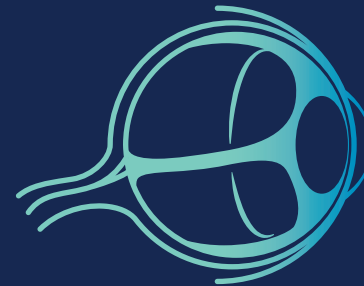

---

## IMAGING MODALITIES

- Adaptive Optics (AO)
- Anterior Segment Optical Coherence Tomography (AS-OCT)
- B-Scan Ultrasonography
- Color Fundus Photography
- Confocal Microscopy
- Corneal Topography
- Electrophysiology
  - Full Field ERG
  - Multifocal ERG
- Fluorescein Angiography (FA)
- Full-field Stimulus Testing (FST)
- Indocyanine Green Angiography (ICG)
- Microperimetry
- Monochromatic Imaging
  - Fundus Autofluorescence (FAF)
  - Near-Infra Red (NIR)
- Optical Coherence Tomography (OCT)
- OCT Angiography
- Pachymetry
- Perimetry
  - DAC
  - HVF
  - Kinetic
  - Static
- Slit Lamp Photography
- Specular Microscopy
  - Endothelial Cell Count

## DIFFERENTIATORS AND BENEFITS

- Embedded physician leadership
- Provide scientific and medical expertise in protocol development
- Long-term relationships with successful, experienced sites, networks, and key opinion leaders
- Recruitment expertise in patient populations including pediatrics, geriatrics, and rare diseases
- Dedicated global regulatory submissions team and global regulatory affairs for comprehensive support
- CAP accredited central lab services for safety testing, PK/PD, biomarkers, and genomic testing
- ClinTrak® - technology for proactive study management
- Experienced trial and data managers to drive efficiency and quality

SCIENTIFIC EXPERTISE
